I am a curious, determined, and enthusiastic full stack developer. My technical knowledge and creativity help me deliver well-tested, robust solutions that provide real value to users.

EXPERIENCE

FULL STACK DEVELOPER, CodeOp - Barcelona | Jan, 2023 - Mar 2023

- 3 months intensive full-time bootcamp covering modern full stack technologies.
- Built 3 full stack projects: an individual project, a Feature Extension and a Group Project.
- Also covered data structures & algorithms, problem-solving, testing, debugging, pair programming and project planning.

FRONTEND DEVELOPMENT WITH REACT, Codecademy

Apr 2022 - Jan 2023

- Learned fundamentals of HTML, CSS, Javascript and React by building interactive applications.

NAIL ARTIST, Nail Salon - Barcelona/ Girona | Nov 2017 - Jan 2020

- Recognized repeatedly for my attention to detail, creativity and high-quality work.
- Worked closely with customers to understand what they want, refining their ideas and providing creative suggestions.

PROJECTS

FOODY (GROUP PROJECT) React Express JWT Bcrypt Bootstrap CSS Git

- Mobile first full stack app that helps users search for recipes based on the ingredients they already have in their fridge.
- Added recipe search functionality, rendering selected recipes and displaying additional details from various 3rd party apis, recipe comparison by nutrition data, improving responsive UI for mobile devices.
- **What I learned:** Aggregating data from multiple 3rd party API endpoints; Responsive UIs; planning, communication and support in team project; git work flow using branches, pull request and resolving merge conflicts.

PET FINDER (FEATURE EXTENSION) React Express MySQL JWT Bcrypt Bootstrap CSS Git

- Application to help people to find animals to adopt.
- Added the ability to create an account and login securely using login and registration forms. Also enabled users to save a list of their favourite pets.
- **What I learned:** Authentication; reading, understanding and contributing to code written by someone else.

MOODBOARD (INDIVIDUAL PROJECT) React Express MySQL Docker CSS Git

- Create, store and view your moodboards - creative spaces to save everyday inspiration.
- Allows users to create moodboards with text and images, adjust the layout by shuffling elements, and save them to the backend for future viewing.
- **What I learned:** the power of re-using react components; querying across multiple tables using SQL Join; passing state and functions.

TECHNICAL SKILLS

React.js, Node.js, Express.js,
Javascript, MySQL, Bootstrap,
HTML, CSS, REST APIs, Git, Docker

TOOLS

VSCode, Postman, Zsh, Slack,
Notion, Trello, Zoom

EDUCATION

Cal Gravat (Secondary School)

Manresa, Barcelona | 2011 - 2015

LANGUAGES

English Very good command

Spanish Very good command

Chinese Native Speaker

Catalan Elementary proficiency
